

CASH PREDICT

PRIVACY POLICY

What information we MAY collect:

1. Completely anonymized analytics data for better understanding how many active users there are, how often those users launch the app, what screens they access, what devices they use, how long they stay inside the app and other similar insights.
2. Completely anonymized crash and non fatal error data originated off of any malfunctions or unpredicted conditions for helping our team discover and fix bugs.

What information we will NEVER collect:

1. We don't require users to create a user account, this way we don't know your name, where you live, your email, etc. In other words: we have no means to know who you are.
2. We don't track your devices across the internet for advertising or any other purposes.
3. We don't copy, backup or transmit the data you entered on the app. You are the solo guardian of your own data.
 - A. When you opt in for synchronizing your data across your Apple devices, Cash Predict will store your data into a private, secure iCloud storage space designated by the operating system. In no circumstance your data will be stored, copied or transmitted anywhere else.
4. We don't track your location or any other related information.
5. Whatever other information you may have in mind, rest assured that we will never collect.
